Ways to Not Fall Behind During the Summer Months

The summer is coming soon. Research suggests that students experience gaps in their learning when they do not read nor study during the summer months. Here, we listed ways to not lag behind during the summer. We have also included a list of books you can read during the summer. These suggestions are categorized according to content area (e.g., science, math, social studies, and the English language arts.)

Improving your verbal ability in the summer

- ♣ Read nonfiction and fiction works from a variety of genres (e.g., fiction, nonfiction, biography, autobiography, science fiction, fantasy, mystery, thriller, etc.). As long as the child is interested in the topics, he/she will enjoy the books and get the most out of them.
- ♣ Read noteworthy magazines and newspapers articles and online works (e.g., Time, Reader's Digest, The New York Times, and The Wall Street Journal).
- ♣ Take practice tests from a variety of PSAT and SAT preparation materials
- ♣ Purchase and work from several preparation tests and guides for the PSAT and SAT
- ♣ Get vocabulary flashcards from bookstores
- ♣ Get the book, The Daily Spark on enhancing vocabulary

Summer reading suggestions

See Subjects Matter by Harvey Daniels and Steven Zemelman (on the content areas; English, social studies, science, and math, et al).
